

TRAVELLING HEAD DIE CUTTING PRESSES

The Travelling Head Press is used for cutting textiles, plastics, foam, gaskets, rubber and other materials.

La cortadora de cabeza móvil es usada para cortar materiales textiles, plásticos, esponja, empaques, hule y otros materiales blandos.

FEATURES:

- Efficient cuts of single or multiple layers of material
- Uses a hydraulic-down and hydraulic-up system to provide an even cutting depth
- Very quiet
- Special cutting pad locking device can prevent the cutting pad from warping
- Cutting stroke up to 130 mm (5.1") to handle thick material
- High speed
- Heavy-duty construction
- Die height and material height can be set quickly
- Many bed-sizes available
- Allen Bradley electrical controls available

CARACTERÍSTICAS:

- *Eficiente para cortes precisos de capas de material múltiples o secillas*
- *Usa un sistema hidráulico de descender y ascender para cortes uniformes*
- *Muy silenciosa*
- *Aparato para aguantar la superficie de corte para que no se deforme.*
- *Puede cortar material con un grosor de hasta 130 mm (5.1")*
- *Alta velocidad*
- *Construcción fuerte para trabajos pesados*
- *Se puede ajustar rápidamente para diferentes alturas de troquel o material*
- *Se dispone de una gran variedad de tamaños de área de trabajo*
- *Los controles eléctricos son de Allen Bradley*

ACCESSORIES AVAILABLE:

- Automatic pinch roll attachment
- Roll holding stand for 4 - 10 rolls

ACCESORIOS OPCIONALES

- *Aparato para avanzar material en rollos*
- *Sostenedor para rollos (de 4-10 rollos)*
